The News.

The steamer *Canada* brings us later advices from Europe. The Liverpool and London breadstuffs markets have declined a trifle, since the departure of the last mails. A plot amongst the Turks to massacre the Christians had been discovered at Smyrna, and the guilty parties arrested. A very full synopsis of the steamer's news will be found in the telegraph columns.

We have another despatch by the Atlantic Telegraph from Europe to Milwaukee *in one day*.

The death of M. T. SCOTT, President of the Northern Bank of Kentucky, is announced.

CYRUS W. FIELD will be received at his native place, at Great Barrington, Mass., to day, with great honors.

Gen. HARNEY has been ordered to the command of the Army in Washington Territory, to conduct the winter campaign against the Indians.

Another Douglas office holder has been removed at Princeton, Ill., and a straight Buchanan man appointed in his place.

The majority against the Lecompton Constitution in Kansas, as officially declared, is 9,212.

In the New York market yesterday, flour declined 5a10c, and wheat was active, without change. With increased receipts, there was considerable activity in our market in the morning, but the foreign news had a depressing effect upon the afternoon's market.

The weather yesterday was a little cloudy with indications of rain.

A Novel Slander Suit.

CHARLES W. DETMERING, a member of the late Legislature from the County of Washington, has sued ALBERT BADE, of this city, in the sum of Ten Thousand Dollars, for certain defamatory words alleged to have been spoken by the said BADE, in relation to the said DETMERING. The plaintiff, DETMERING, in his bill of complaint, avers, "upon information and belief, that on or about the 16th of May, 1858, at the city of Milwaukee, ALBERT BADE, in the presence and hearing of a number of persons, maliciously spoke concerning the plaintiff, the false and defamatory words following, to wit: He (the said plaintiff) received one hundred dollars from DANFORD MAXON to vote against the removal of the Capital for Madison against Milwaukee and he (BADE) knew it."

The plaintiff further alleges that the defendant, in speaking these defamatory words, referred to the vote upon the question of the removal of the Capital; and that he, the plaintiff, by reason of the speaking of the words aforesaid, has suffered injury in his reputation to his damage ten thousand dollars. Wherefore he prays the Court to compel ALBERT BADE to pay him $10,000, with interest from the day the words were spoken, &c.

We never heard Mr. DETMERING charged with receiving $100 for his vote, but rather wonder that as a member of a Wisconsin Legislature he should feel aggrieved at the imputation. A great many members of the Legislature of 1856 have been again and again charged with receiving $5,000 and $10,000 for their votes, but they have borne the affront like philosophers and never thought of suing their accusers for defamation.

ANOTHER RICHMOND IN THE FIELD.—The rumor goes in political circles, that Mr. JACKSON HADLEY has taken the field as a candidate for Congress from Milwaukee County, against Mr. JAMES S. BROWN. Should this prove to be so, there will be lively times at the Democratic Primary Meetings.

THE RAILROAD MEETING.—There was a good attendance of members of both political parties, at the meeting last Thursday evening, and the proceedings were orderly and harmonious in a high degree. While there was a general disposition to avoid personalities and everything that would tend unnecessarily to excite local feeling and prejudice in any quarter, the sentiment was unanimous and earnest in favor of sustaining the Governor in the course which he is taking in defense of our rights and the rights of the people of the State.

Mr. McGregor gave a statement which fully vindicated his good faith, if any doubt of the same had been entertained of his conduct throughout as a member of the board of directors. So far as we know, none of our citizens has ever questioned Mr. McGregor's fidelity to the interests of this place, or the general prudence and propriety of his course in the board. At the same time the determination of all, as manifested by the meeting, to stand by and defend the Governor as preeminently right, is most decided and emphatic.—*Portage City Record.*

DESTRUCTIVE FIRE.—Last Saturday night at about twelve o'clock, the building known as the "Littlefield Mill," situated in the Fourth Ward, was discovered to be in flames. The alarm of fire was immediately given—the church and fire bells rung, and in a very few minutes our streets were thronged with men, on their way to the scene of conflagration. The fire department—or, rather numbers two and three—were promptly on the ground—the engine of No. one being laid up awaiting repairs, was unable to render any assistance. The flames got under such headway that it was found impossible to save the mill—it was burned to the ground, together with a large quantity of lumber. The adjacent Shingle Factory of Mr. E. H. Galloway was, through the strenuous efforts of our gallant firemen, barely saved from sharing the same fate—the roof upon the exposed side was utterly ruined, and we learn that Mr. Galloway also lost a quantity of shingles. The mill was owned by a Mr. Lyons—It was the first steam mill built in our city, and its original cost was about eight thousand dollars. The entire loss, including buildings, lumber, &c., cannot be far from ten or twelve thousand dollars—no insurance.—*Dem. Press, (Fond du Lac) Aug 25.*

PROGRESS OF THE CANAL LOCK.—Under the charge of Richardson & Co., the work on the new lock is progressing rapidly, and will be completed by the first of October. The locks on this River Improvement are the largest in the United States, except those at the Sault St. Marie. The locks on the Erie Canal Enlargement are 18 feet by 110; those on the Fox River and the Canal in this city are 35 feet by 160, or nearly three times the capacity of the enlarged locks on the Erie Canal. Boats carrying 300 tons will soon be able to run between Portage City and Green Bay.—*Portage City Record, Aug. 25.*

NEBRASKA ELECTION.—The election in Nebraska was held on the 2d inst. The Omaha *Republican* of the 4th, has the official vote of Douglas County, which elects one Independent and two Democrats to the Council, and four of each ticket to the Lower House. John Taffe is believed to be elected to the Legislature in the Dakota district. He ran on the Republican and Independent tickets. Otoe County elects the entire "people's ticket" over the regular Democratic, by about eight majority.

From the Cincinnati Commercial, Aug. 19.

Burning of Extensive Dairy Stables, near Cincinnati.

EIGHTY-SIX ANIMALS BURNED ALIVE—DREADFUL SCENE.

In yesterday's paper we announced the destruction of Wm. Hogan's dairy stables, at Brighton. The stables are located on the State Fair grounds, being the building 250 feet long by 50 feet wide, occupied by Mr. Alf Burnett as the "Committee Dining Saloon," during the State Fair last year. Fire was communicated to the structure at about 10 o'clock, and in a short time it was totally consumed, together with *seventy-four cows, four valuable horses, one mule, four or five calves, two goats*, two new milk wagons, some half dozen sets (or more) of good harnesses, a dozen or more milk-cans, numerous buckets and pans—in fact, all the utensils belonging to the dairy—everything used in the stables—and oats, corn and hay, which cost Mr. Hogan $1,000. The total loss is estimated by the unfortunate proprietor at *between seven and eight thousand dollars*. He informed us that he was completely "cleaned out." Two horses, two cows, one mule, two goats, and two calves, only escaped, but they are so badly burned that it will perhaps be humane to kill them.

Mr. Hogan describes the scene in the stables in the midst of the conflagration, as most piteously and indescribably harrowing. The live stock were tied in their stalls. The horses and mules were haltered in their usual manner, and the cows were bound around the horns. When the flames first commenced their ravages, the poor animals snorted and bellowed with hideous and frantic force. As the heat increased, and the fierce fires began to lick and scorch their quivering flesh, their cries and groans and furious struggles became agonizing. Some threw themselves headlong upon the floor, or leaped upright at full length with frenzied energy, and vented their agony in fearful screams. The horses broke from their halters, and dashed through the consuming blaze in desperate dismay. The tortured and suffocating cows tore away their horns and rushed through the blazing piles and encountered each other in destructive collision, their flesh broiling and cracking in the heat with sickening effect upon the senses of human beings who gazed horror stricken upon the wretched scene of suffering, without power to mitigate the agony of the tortured brutes. The yells and despairing cries of the different classes of animals commingled in horrid concert, and broke through the roar of the flames and crackling timbers upon the still night air, and were borne away in terrifying echoes to the ears of persons two miles distant from the dreadful scene.

Two or three horses, and as many cows, plunged through the flames and burst in wild affright through the sides of the consuming structure, and fell headlong, whining with misery, upon the ground outside, sprang again to their feet, and sped with frenzied fury across the fields until they dropped lifeless from sheer exhaustion.—Some rolled upon the floor of the stable, screaming with unmitigable pain, until suffocated and destroyed by the fierce heat. Their contortions, their awful wails of distress, infinitely more piteous and harrowing than those of human beings in the dire extremity of torture, are described by those who gazed spell-bound upon the terrible spectacle as surpassing the power of human imagination to conceive. Happily the agony of the poor brutes was not greatly prolonged. The timber composing the stables burned like tinder, and the hay and oats-straw, some forty tons, blazed and perished in the fierce heat like lucifer matches. But the flesh of the carcasses quivered, and blazed and broiled all night long, and filled the atmosphere with a sickening effluvia.

Yesterday morning large numbers of persons visited the ruins, but they turned from the spectacle with disgust. The charred and smouldering remains of the dead animals lay in great heaps. Some were only partially consumed, of some nothing but bones, horns and hoofs remained. Some of the cows stood upright at their stalls, their flesh barbacued; others were without heads, others without limbs; in one instance four or five carcases laid together with their horns interlocked, forming a circle. It was a ghastly scene to contemplate. The fire is believed to have been the work of an incendiary.

FINDING "STOW-AWAYS."—The California steamers *Star of the West* and *Granada* left yesterday at 2 o'clock, P. M., with a full load of passengers and the California mails. There being two steamers, the duty of collecting tickets and searching for stow-aways on board the *Granada* devolved upon Purser Builey, of the steamship *Philadelphia*, who performed the onerous duty with great credit. He succeeded in hauling out of their hiding-places eleven persons, mostly young men, who had concealed themselves on board in various nooks and corners without tickets. They were found in the coal bunkers, under the run, in the eyes of the ship, jammed between the water-tanks, and in every other hole where it was possible for a human being to cram himself in. Capt. Jonah Clark, the efficient shipping agent of the Company, who went down on board the *Star of the West*, beat Builey by two, having found *thirteen* stow-aways. Some of his subjects were concealed under the boilers, among the ashes and coal-dust, where nothing but salamanders could live. On being hauled out they were so blackened and besmeared as to hardly be distinguished from Jamaica negroes. The whole twenty-five were put on board of the pilot's tug and brought to the city. Among them was an Irish boy named Thos. McGrath, only thirteen years old, who was caught in the same attempt only a few weeks ago.—*N. Y. Times, Aug. 25.*

A YOUNG LADY BURNED TO DEATH.—We have another painful and fatal accident to chronicle, from burning-fluid. At about eight o'clock last evening, at the residence of Mrs. Meyer, a widow lady, on Adams street, between Clark and La Salle, a fluid lamp was upset from the table, by a little boy, spilling its contents upon the dress of Miss Mary Meyer, a young and interesting lady about seventeen years of age. The lamp being lighted, the young lady was instantly enveloped in a blaze. She ran with screams into the street, and was there caught by Mr. Burkey and policeman Nelson, who did all in their power to extinguish the flames by wrapping her in their coats, but did not succeed until nearly all her clothing was consumed and her person terribly burned.

She was taken into the house in great agony, and Drs. Committi and Smith were called to attend her. They did everything that was possible to relieve her, but all was unavailing. She continued in great pain till 2 o'clock this morning, when she expired, retaining her consciousness until within ten minutes of her death, and bearing her sufferings with great fortitude, scarcely uttering a moan. The deceased was a young lady of fine social and intellectual qualities, and had been examined and admitted as a member of the High School only a few days since.—*Chicago Journal of last evening.*

DEATH FROM HYDROPHOBIA.—A daughter of Mr. Benjamin Buxton, Esq, of Hamburg, died on Friday last, of hydrophobia. Three or four weeks ago, while the little girl, about ten years of age, was playing and gathering flowers along the banks of Eighteen Mile Creek, which flows through her father's farm, a dog sprang upon her, and seized her by the leg below the knee. Her cries and efforts were unavailing to make the animal release his hold, and at length she dragged him to the creek. As soon as he touched the water he relaxed his grip, and the little girl returned home. The wound was properly cared for, and as the dog was not known to be rabid, little anxiety was manifested. Up to last Wednesday she was apparently as well as usual, when she was seized with spasms, and died in forty-eight hours, after suffering the most excruciating torture.—*Buffalo Commercial.*

THE CHANGE OF LEVEL IN THE LAKES—THE HIGH WATER—ITS CAUSE.—Chester Dewey, L. L. D., of the University of Rochester, states that Lake Ontario is seven inches higher than in October, 1857, when it was the highest that had been known for eleven years. He states that there is no regular time of rise or fall in the lakes—no periodical changes of five, or seven, or eleven years. Lake Ontario is high or low when or soon after the same fact in Lake Erie, and the fluctuations are about equal, as they are in Lake Michigan. The difference in the level is very rarely four feet in a year, when the waters are at rest.

The conclusion he arrives at after eleven years observation of the lakes, and of meteorological conditions in their vicinity, is that the fluctuations of their level depend on the quantity of water poured into the lakes by all the streams which carry off the rain and the melted snow, and upon the amount of evaporation.

SUPPOSED MURDER.—The body of a man named Ditmyer, was found at Pigeon Creek, in this County, one day last week, horribly mutilated, the legs and ears being cut off, and other marks indicating a diabolical murder. We are unable to get further particulars, but it is hoped that some developments will lead to the arrest of the perpetrators of an act so fiendish.—*Manitowoc Tribune.*

A CURIOUS DECISION.—A youthful Justice of the Peace, in this city, has recently rendered a decision, which embraces some rather peculiar ideas, and which we are inclined to believe, with due deference to said profound Justice of the Peace, will not be sustained in a higher Court. It seems that not a great while since, a dispute existed between two residents of the Second Ward, as to the ownership of a very insignificant specimen of the canine species, one claiming that *he* was the rightful owner of the dog, and the other setting up the same plea on the ground that he had purchased the animal and paid for it. Whether the cur belongs to "tother or which" we neither know nor care.

The next place where we will introduce the disputants, is upon a public street, one having hold of the rear extremity of the unfortunate dog, and the other hanging on to the fore quarters. This interesting scene attracted a crowd of admiring spectators, some expecting that the disputed animal would be pulled in twain, and others sanguine that a serious fisticuff would be the result. At this stage of the equabble, Policeman GRUBER made his appearance on the opposite side of the street, and at the request of some peace-loving citizens went across, and interfering, separated the contestants, owner No. 2 carrying with him the prize. The policeman ordered him to go away with his dog, and not be again found quarreling upon the street, else he would arrest both of them.

No. 2 crossed the street and went away about a block distant, as directed, taking the dog with him. Here owner No. 1, after making the circuit of a block, met No. 2 and again attempted to take the cur by force. The policeman, however, arrested him, and the other carried home the dog. Owner No. 1 then immediately commenced a suit against the policeman for the loss of his favorite canine. He placed the case in the hands of an able pettifogger, who took it before Justice TURK, Jr., of the First Ward, and a day or two since obtained a decision in favor of his client, and a judgment against policeman GRUBER, for the supposed value of the lost dog and the costs, amounting to some $30! The policeman, of course, will not submit to the imposition, and has appealed the case to the Circuit Court. The duty of an officer, under such circumstances, is as plain as pike staff. It is his business to arrest disturbers of the peace in all cases, no matter whether the cause of such disturbance be just or unjust, and to refuse or neglect to perform his duty, in a case similar to the above, would be sufficient to justify his removal from office. If the man who now has the dog does not lawfully own the cur, he *is* the one who should have been sued, and *not* the policeman. If the dog belongs to him rightfully, that ends the matter. The claim set up by the prosecution, however, was, that the owner was deprived of his property by the *interference* of the officer. Whether the grounds of this plea and the corresponding decision, are not more ridiculous than stupid, is the only point upon which we are at a loss to decide.

GOING AHEAD.—The work upon the two warehouses near the Depot of the M. & M. R. R., that of Messrs. GEMMELL & SMITH, on the Menomonee, and of Mr. HIGBY upon the site of his old warehouse, is progressing rapidly. The timber and lumber for the former is all on the ground, and most of it hewn, ready for use.—The stone work is all finished, the first floor being laid, and the builder has commenced putting together the huge frame work. It is indeed a stupendous undertaking, and when completed we will have a grain warehouse not to be surpassed by any other in the whole country.—Mr. HIGBY's new warehouse is already nearly up to the second story, and is being built in a much more substantial manner than the old one. It will be ready for use in a short time, but the other, we fear, will not be completed as early as had been anticipated.

OUR PUBLIC SCHOOLS—AN EXAMINATION.—There will be an examination, on Monday next, at the Seventh Ward School House, of all applicants for employment as teachers in the Public Schools of our city.

On Monday, at the same place, there will be an examination of all candidates for admission into the Seventh Ward High School.

FAST DRIVING.—A young man named JOHN B. BOWERS was arrested yesterday afternoon, for fast driving on East Water street, and fined $5. Did the law allow a heavier penalty for this offence, we are inclined to think the defendant would have had to pay more dearly for his recklessness. He drove up East Water street violently, and at the corner of Wisconsin street came within a hair's breadth of running over two little girls who were about crossing the street. One of them, indeed, was so frightened that she fell under the horse's feet, and how she escaped being hurt is astonishing. The ruffianly driver swore at the children for getting in his way, and was going on, when Mr. MAGIE (of MAGIE & SWAIN,) seized his horse and sent for an officer, who arrested him. When brought up in Court he said his horse was a "high-blood English" animal, and, said he "no man under the sun can make him go slow unless he has a mind to."—And again, when the witness testified that he thought the defendant was driving at the rate of 10 miles an hour, said the driver "I want you to know, sir, and the Court, and everybody in this room, that my horse couldn't travel faster than 8 miles an hour to save his life!" Not having the money to pay his fine, BOWERS handed over his watch to a constable in the court room, who held an execution for the amount, and left, advising the City Attorney "never to cross his track."

AN INGENIOUS AND HANDSOME TABLE.—An exceedingly ingenious piece of workmanship is now to be seen at SEAMAN & WING's Furniture establishment, on Huron street. It is a dining table, which, when closed up, answers for a writing desk. Whether arranged for a writing desk or a table, it is a handsome piece of furniture, and must come greatly into use. It was invented by Mr. QUIGLEY, of Watertown, Wis, and a quantity of the same kind will be made up at once by Messrs. SEAMAN & WING, and sold by them at a very reasonable price. The table can be made to accommodate any number desired, and when closed up it occupies no more room than an ordinary writing desk. It can be extended into a table and shut up again in a quarter of the time that is necessary for a regular extension table. It must prove a great convenience for farmers, hotels, steamboats, and in fact for almost every one wanting a large table.

POLICE COURT YESTERDAY.—John Boylan, plead guilty to the charge of violating an ordinance regulating hackney coaches, cabs, drays, &c. In this case the court suspended judgment upon the defendant.

The case of Thomas Carfey, charged with assault and battery upon Charles Johnson, was dismissed for want of prosecution.

U. B. Smith, was fined $10 and costs for committing an unprovoked assault upon Henry Kroeger, the ice man.

John McMahon, intoxicated, fined $1.

SELLING BAD MEAT.—Three meat venders were arrested yesterday on the charge of selling meat in the First Ward, out of the regular market house, without license. We understand that these individuals bought a quantity of bad beef at a very low price, and sold it to their customers as good meat. If this be true, we hope that they will be punished to the full extent of the law. The men arrested were Germans, and they are in the habit of keeping meat stands on the street in the vicinity of the First Ward Market House.

LECTURE OF THE REV. S. C. MACREADING.—The lecture of the Rev. Mr. MACREADING, on the philosophy of sleep and dreams, was attended by quite a respectable audience, on Tuesday night, at Young's Lecture Room. The lecturer presented the subject in an interesting manner, and was listened to with close attention from the opening to the close. It was an instructive discourse, and those who attended felt amply rewarded, no doubt, for their time and trouble.

MISSIONARY AID.—The young men connected with the Summerfield Methodist Church, Rev. H. C. TILTON, pastor, have recently formed a society for the purpose of aiding in the promotion of the Missionary cause in this city. A meeting of the society was held on Monday evening, at which it was voted to organize a Mission Sabbath School, on Sunday morning next, at 9 o'clock A. M., in Miss McDonald's school room in the 1st Ward.

REMOVAL OF THE MILWAUKEE TOBACCO WORKS—It will be seen that Messrs. B. LOEWENBACH & Co. have removed their extensive tobacco factory and wholesale segar store, from Chestnut street, to No. 8 East Water street. Their increased facilities for doing business enable Messrs. LOEWENBACH & Co. to offer their goods to the country trade, on the most favorable terms, as will be seen by their advertisement.

WISCONSIN EYE AND EAR INFIRMARY.—This institution, under the management of Dr. MEIGS CASE, has gained a wide reputation in a very short period, and is fast becoming one of the "fixtures" of Milwaukee. The operations of Dr. CASE upon persons afflicted with diseases of the eye or ear, are said to have been attended with wonderful success. We refer our readers to Dr. CASE's advertisement for particulars.

☞ This morning CALEB WALL sells Dry Goods; also he will sell the Organ which has been advertised for several days. Any one who desires to see the Organ, and try it, if they will call at his Auction Room, at 9 o'clock, he will give them an opportunity of trying the power of the Organ.

FARMS.—J. S. FILLMORE has two good farms in the town of Summit, Waukesha county, for sale cheap. They have good houses, barns, &c., and are well watered, and situated on the borders of the beautiful lakes in that vicinity.

DISCOUNTS.—We keep a file of "Notes for discount" in our office, for the inspection *only* of parties who wish to invest in that way, and not for indiscriminate hawking. Persons negotiating through us may rely on a judicious and discreet offering of their paper.

A despatch from Independence, 2d inst., per U. S. Express Company to Booneville, says that the Santa Fe mail, with dates to the 2d inst., had arrived. A private letter received in Santa Fe, says war with the Navajo Indians is inevitable, they having determined not to surrender the murderer of Major Brook's negro, and even invited the troops to fight.

Business at Santa Fe was very brisk. The *Gazette* states that nearly $200,000 worth of goods had been sold there within two months.—Abundant rains had fallen throughout New Mexico, rendering irregation unnecessary. The crops were very fine.

The government had made another seizure of arms, and sent the guilty parties to Constantinople.

It was reported on the 28th of July that a band of Montenegrians 1,000 strong, assailed Kolashin, killing nearly 1,000 of its inhabitants, who, confiding in the armistice, were unarmed. The Montenegrins burnt nearly all the houses, and carried away women and children into captivity. Details of the Calcutta mail, July 4, add nothing important to the telegraphic despatches.

The negotiations with the new Chinese Commissioners were proceeding at Tien Sing, and an interview was to take place on the 7th June.

GODFREY'S

EXTRACT OF ELDER FLOWERS

For softening the Skin and Improving the Complexion.

EUGENE DUPUY, 609 BROADWAY, N.Y

Sole Agent for the United States.

THE object of this Circular is to give publicity to the most valuable and efficient Remedy that has yet been introduced in the practice of Medicine, for the purpose of removing every unsightly appearance from the Skin, and preserving to it to the latest period of life nearly all the firmness and freshness of youth. Extensive experience and minute observation have long satisfied the Proprietor that if applied as directed it will speedily remove any unsightly appearance, such as Tan, Sun-Burn, Freckles, &c., and quickly cure all Pimples, Humors and Eruptions which may disfigure the countenance; and will also impart to the Skin the most delightful softness and delicate clearness; in short, to preserve a pleasing complexion through life, nothing is required but the use of Godfrey's Extract of Elder flowers, the sweetest and really the most perfect beautifier in Nature. This admirable preparation of Elder Flowers is very fragant as a perfume. Elder Flowers have from the earliest ages been esteemed as a mild and harmless, yet most perfect beautifier of the Skin. Tan, Sun-burns, Freckles, Redness, &c., it will speedily and completely remove.

CHILDREN.—It is singularly beneficial and perfectly innoxious, even to the youngest infant.

SHAVING.—It is valuable beyond anything, annihilating every pimple, and all roughness rendering the skin soft and firm, preparing it so completely for the razor.

FAMILY LOTION.—Godfrey's Extract of Elder Flowers will be found beyond all praise, and needs only a trial to be approved.

AGENTS.—Gary, Howard & Sanger, New York; Schieffelin Bros. & Co., New York; J. W. Norcross & Co., Boston and New York; F. O. Wells & Co., New York. And all other Wholesale and Retail Druggists.

2d. To comprise the Journals and documents of the two Houses, and all general and local laws passed by the Legislature.

3d. The printing of the several State departments, including all blanks, blank books used in the several branches thereof of all kinds and descriptions whatsoever; to include such blanks as have heretofore been lithographed or engraved, used in the several departments.

No bid will be considered unless accompanied by a guarantee of twenty thousand dollars that the bidder if successful, will execute to the State a bond as contemplated in said act. Specifications as to what shall constitute a printing bid, will be subject to examination at the office of the Secretary of State on and after the 23d day of August. Such specifications together with the proposal of the successful bidder to be attached to and form a portion of the contract at the time of consummating the same.

A basis will be adopted by the Commissioners, to be in readiness at the hour of opening the bids, upon which basis each of the bids will be computed, but said basis will form no part of the contract, and will in no manner be binding upon the State as to the quantity of the work required.

Bidders are required to furnish specimens of each class of all classes of work bid for. Such specimens as are deposited by the successful bidder shall be kept by the Secretary of State, as a standard criterion for all work provided for in such contract, and shall be the guide for auditing all accounts under the same. Should any work prove inferior to such specimens, in the opinion of the Secretary of State, or other officer duly authorised to canvass the same, such work will be refused.

The successful bidder will be required to execute under the terms of his contract, all printing and binding for the State, which the present contractor is not bound to execute, or which he claims not to be under the provisions of his contract from the execution of such contract to the first day of January next.

The contract may be annulled for unreasonable delay in doing the work, or for doing it in an inferior or improper manner. The contract for such printing to be made and executed under and subject to the provisions of chapter 114 of the general laws of 1858, above referred to, to the details of which, as well as to the specifications and requirements as to bids, above referred to, the attention of bidders is particularly called.

Proposals must be sealed and marked on the outside "Proposals for Printing," and be sent through the post office, directed to the Secretary of State, Madison, Wis."

Given under our hands, at the Capitol in Madison, this 2d day of August, A. D. 1858.

The News and its Forged Letter.

Our brief allusion to the forged letter which some one about the *News* establishment manufactured and published, last Fall, draws an elaborate explanation and some angry expletives from that Journal. The latter need no reply, but the former calls for a short notice. Our statement was that the *News* had published "a *forged letter*, purporting to have been written by J. A. NOONAN, to Secretary JONES. The *forgery* was traced directly to the *News* office, and the editor thereof, then P. M., still 'rests under the imputation' of having manufactured it."

To this the *News* makes answer, as follows:

1st. The *News* never published "a forged letter, purporting to have been written by Mr. J. A. Noonan to Secretary Jones." We published *what purported to be a copy of a genuine letter*, and so stated at the time of publishing it.

Here is a "distinction with a difference." The "copy" which the *News* published was no more like "the genuine letter," than A is like Q. In other words, it was a palpable and deliberate forgery, got up and published in the *News* for political effect.

2d. No "forgery was traced directly to the *News* office." Mr. Noonan knows, and has known ever since he re-possessed himself of his original letter, who furnished the copy which was published in the *News*.

The "forgery" *was* traced directly to the *News* office, and the spurious "copy" obtained from there by Mr. NOONAN'S Lawyer. Mr. N. does not at all know who furnished said copy, but is strongly inclined to believe that it was manufactured by some one of the *News'* "clique".

3d. The editor of the *News* has never rested "under the imputation of having manufactured it," because 1st, *it was not manufactured by any one*, although we have been informed by a friend of Mr. Noonan's, who saw the original, that we did not publish a literal copy of it.

Here, in one breath, the *News* denies that the published letter was spurious, and in the next admits the fact. If the copy was not a "literal one"—and the *News* confesses that it was not—of course it must have been manufactured. Who was the manufacturer? If not any one in the *News* office, who furnished the *bogus* copy?

Lastly the *News* closes thus defiantly:

We stand ready to prove that Mr. Noonan did write a letter, and address it to Col Jones, *which bears a strong resemblance to the copy which we published.*

A shabby excuse. But even this will not avail the *News*. "We stand ready to prove"—as soon as the *News* shall have got through with *its* testimony—that the published letter was wholly unlike the original—in other words that it was a fraud and forgery. Who did it?

SHOWING ITS TEETH.—The *News* begins to show its teeth at Mr. JAMES S. BROWN, to whose nomination for Congress it is bitterly opposed. Thus, forgetting its resolve of Sunday, not to inquire into any candidate's "antecedents," it thus arraigns Mr. BROWN for treason to the party:

He was opposed to the Kansas-Nebraska bill—opposed to the Lecompton bill, and opposed to the democratic ticket at our late charter election, and supported the nominee of the opposition for Mayor.

The *News* copies, moreover, with great gusto, the following squib at Mr. BROWN, from the Madison *Journal*:

The democracy of Milwaukee now propose to present JAMES S. BROWN, a finical little lawyer, who can talk all day in the most eloquent tone of voice, without ventilating more than half an idea, as their candidate for Congress. Such a candidate will stand but little show with the masses against such a man as JOHN F. POTTER.

However, while the inside page of yesterday's *News* shows how poor an opinion the editor thereof entertains of Mr. BROWN, the outside records the proceedings of the Democratic caucus in Lake, where Mr. BROWN was the unanimous choice of the electors present. It is quite probable that Mr. BROWN will, under these circumstances, be easily reconciled to the cold shoulder of the *News*.

THE UNION ON DOUGLAS.—As a sample of the "union and harmony" now pervading the Pro-Slavery ranks, and of the pleasant temper in which the Administration organ speaks of Senator DOUGLAS, we copy this morning what the Washington *Union* has to say about the provoking Senator from Illinois, who won't withdraw from the field even to gratify Mr. BUCHANAN and save the party.

A WALK ACROSS WISCONSIN.—A clever correspondent sends us some graphic and very readable sketches of a pedestrian tour through a portion of our glorious State. We publish the first this morning. "ALPHA C." will always be welcome to our columns.

The State Fair at Madison.

We learn from the Executive Committee of our State Agricultural Society that the programme for the State Fair, which is to take place during the first week in October, is about completed and will shortly be published. Besides the usual variety and amount of Premiums for Horses, Cattle, Farm and Dairy Products, Agricultural Implements, Machinery and other articles, there will be liberal prizes offered for the Firemen's Tournament and for a grand Regatta on Third Lake. The prizes offered to Firemen will be four in number, two for each class, all competing engines to be ranked in one of two classes. As yet, we know of but three first-class engines entered for competition, Nos. 2 and 6 of Milwaukee, and No. 2 of Beloit. But, doubtless, before the day arrives other competitors will appear. Racine, certainly, and Kenosha also, we think, boasts of at least one first-class engine, which may worthily contend with Milwaukee and Beloit. Of second class engines there will be ten, or twelve entries, and the strife for the mastery, in this class, between Janesville and Madison, will be earnest and exciting.

The Regatta promises to be as attractive a feature of the Madison Fair, as it was at the State Fair in Milwaukee, two years ago. Third Lake affords a beautiful course for the competing oarsmen, as its wide expanse and high shores will give spectators the opportunity to see every part of the race. Handsome prizes will be offered for the different classes of boats, and several of our Milwaukee clippers will be on hand to try their luck. We anticipate a lively contest.

Some apprehensions have been expressed that there would not be sufficient accommodations in Madison for the thousands who may be expected to congregate there during the Fair. We are assured, however, that there will be room and welcome for all who come, private hospitality making up whatever may be lacking in the public accommodations. The grounds selected for the Fair are admirably located and will be fitted up in the most convenient style. Altogether we look for the best Fair we have yet had in our State.

Acceptable Testimonials.

From among a number of letters "of the same sort," received at our office within a few days past, we venture to publish the two following as "specimen bricks:"

DARTFORD, Aug. 21.

DEAR SIR:—My subscription to the Daily *Sentinel* having expired a few weeks since, I have had to resort to petit larceny in the meantime, to keep posted. But my wife coming home from a three months' visit, the other day, and not finding the *Sentinel*, gave me "Hail Columbia" *a la Caudle*, and insisted that I looked sheepish, "and I looked in the glass and found it so." So please send $3.00 worth of the Daily *Sentinel*. Yours, truly,

ARENA, August 21.

GENTLEMEN:—Enclosed is $1.50, for which please send Weekly *Sentinel*. I can't do without it. Times with us farmers has been so hard of late, that I could not spare the money to renew my subscription, but as I have just lost *more than one years' subscription* on some Oats I sold, by not being posted up with Milwaukee Markets, I can't afford to be without the *Sentinel*.

Wheat is about half a crop here; Oats two-thirds; Corn promises well in some fields, in others the chintz bug is destroying it; Potatoes are turning black in the middle.

The National Horse Show at Springfield.

The Third National Horse Show at Springfield will take place on the 14th, 15th, 16th and 17th of September. It is open to horses from all parts of the United States and Canada, and no less than three thousand dollars are offered in premiums. We learn from "the National Horse Fair Bulletin," of the 16th inst., that the forthcoming exhibition promises to be by far the most complete and attractive that has yet been had. It says:

A success, far outstripping either of the former exhibitions, both in number and character of horses, and of people, is thus early assured for the coming exhibition. Many of our largest stables are already fully pre-occupied, and letters making engagements are daily received. Among the many valuable horses for whom accommodations have been engaged are, "Ethan Allen," "Young Columbus," "Trotting Childers," "Sultan," "Red Eye," "Lone Star," "Hardroad," "Logan," "Spirit of the Times," "Cleopatra," "Clifton," Trident," "Navigator," "Glastenbury Boy," "India Rubber," "Pocahontas," "Rachel King" and "Susan Lovejoy." The presence of these of course secures others, their rivals.—Many gentlemen, owning private studs of rare excellence, but without notorious names, have announced their purpose to come with two, three, four, and, in some instances, eight or ten of their most valuable animals. Horses are coming in considerable numbers from New Hampshire, Vermont, Connecticut, New York, and the British Provinces, and a few at least from farther West and South. There is no risk in saying that there will be the largest and best display of horses ever seen in America.

Among the distinguished guests invited, who have already signified their intention to be present, are the Governors of the several New England States, of New York, and of Illinois; Mr. EVERETT, Count SARTIGES, and others. Liberal arrangements have been made with the different Railroads for the transportation of horses with their grooms, attending the exhibition, and no pains will be spared to accommodate all who may visit Springfield on this occasion. We learn that Milwaukee will be represented at the Fair.

RACINE AND MISSISSIPPI R. R.—The Racine Daily *News* of Tuesday contains a letter, dated New York, August 14, from Mr. G. A. THOMSON to Mr. S. LOCKER, of Racine, in which Mr. THOMSON, who represents a majority of the 1st Mortgage Eastern Division Bonds and a very large proportion of the Western Division of the Racine and Mississippi R. R. Co., announces that finding the Company hopelessly involved and despairing of the ability of the present Directors to conduct its affairs advantageously, he has directed the Attorneys of the Trustees under the first Mortgage Bonds to take possession of the road. The following paragraphs from his letter to the Attorneys are cited:

"This course is not taken from any desire to embarrass the Road, or to sacrifice the stockholders or others; on the contrary, Mr. Thomson, so long as there seemed to be any hope that the Railroad Co., could finish its track, has been willing to acquiesce in any proposal to that end, that seemed at all feasible. But he is satisfied from a personal examination of the books of the Company and the position of the works, that its affairs are hopelessly involved, and under the present arrangements the road can be finished, if at all, only by the most ruinous sacrifices, &c."

"The 1st Mortgage Bond holders, were they invested with full title, could go on and complete the road and if the company will voluntarily give them possession, we doubt not an arrangement can be effected which will secure the rights of all parties, but if the Company reject this suggestion the Bond holders will hold your Company or their Trustees are responsible for the faithful performance of the trust you have accepted."

GREAT CONTEMPT FOR THE RURAL DISTRICTS.—The *News* turns up its nose at the Columbus and Portage meetings, as quite beneath the notice of a Metropolitan journal. It sneeringly says:

These little meetings, however, are very pleasant affairs, and if they are capable of conveying any consolation to poor Randall by such means we are glad of it.—He requires it—"Poor sick-sick soul."

Before the year is out the *News* will discover that these "little meetings" and the men who attend them, are at least as influential as a newspaper which turns its coat twice a year.

CANDIDATE FOR SHERIFF.—ABNER KIRBY, more familiarly and irreverently known as "Old Kirby," announces to "the Democratic electors of Milwaukee County" that he is candidate for Sheriff at the approaching election. ABNER would make a good officer, but he is not in the "Family compact."

A Pedestrian Tour Across Wisconsin.

PART FIRST.

LA CROSSE, Wis., August 21, '58.

DEAR MR. EDITOR:—If you think your readers would relish a rehearsal of the incidents met with and the impressions received by a pedestrian, who has just taken a walk of some little romance from Lake Michigan to the Mississippi, you can raise this unpretending communication to the dignity of print.

In walking the width of the great State of Wisconsin, I have taken a somewhat diagonal, though a very indirect course, travelling more than one hundred miles farther than is the distance across the State in the narrowest place, by the nearest road.

From the beautiful city of cream colored walls, before whose face Lake Michigan's deep blue

"waters bend
Beyond the Eagle's utmost view,"

we passed over Spring Street Hill, which shut from us a birds-eye sight of the scene just mentioned.

That evening we walked only three miles outside the city, but the next day, twenty-three miles farther on brought us to Delafield. This and the surrounding towns comprise a country of great natural beauty; it has yet received but little embellishment from art however. The land in the south-eastern part of the State which is highest above Lake Michigan, is in Delafield, where it rises to a hill of considerable size, from the summit of which about twenty lakes may be seen without a glass. A terrace, or a promontory, or a point stretching out into the water as if trying to reach some island that may add its beauty to the scene, all these features belong to every lake here. They abound with excellent fish, and in the proper seasons with more than twenty varieties of wild ducks.

The handsomest places in this vicinity, and as handsome for all nature can do as any I ever saw elsewhere, are the residences of S. A. RANDLES, Esq., J. C. COX, and C. W. HAWLEY, on the Lower Nemabbin Lake; Col. HYDE and Mr. PARKS, on the Upper Nemabbin; Mr. VAN DYKE on the Lower Nashota, and of the late Dr. G. R. MCLANE on Pine Lake. Since we were there I have heard that Mr. PARKS' place has been purchased by the Sisters of Charity, in Milwaukee, but have not learned what use they mean to make of it. The house is a large stone structure, and the grounds adjoin those of Nashota Theological Seminary, a well known Episcopal institution, where between thirty and forty young men are studying for the ministry. The "Nashota House," or "Whitehall," is the principal college edifice, built of Milwaukee brick, and stands upon a terrace, a few rods east of the Upper Nashota, presenting a fine appearance.—Nashota is indeed as charming a spot as those who have praised it the highest have represented it to be. Bishop KEMPER lives half a mile or so from Nashota.

We stayed in Delafield and Summit several days. In the last named town we saw the splendid farm of Mr. E. W. EDGERTON, formerly President of the Wisconsin Agricultural Society, and in the adjoining town of Ottawa, that of T. C. DODEMAN, Esq., which was equally fine to our eye. Mr. JAMES CLARK, in Summit, showed us thirty acres of white winter wheat he was harvesting, which had over thirty bushels to the acre, beyond a question. I have seen nothing that equalled it this year, though I was looking around for two weeks in Dodge, Fond du Lac, and Marquette Counties, where I have seen more grain than on the same amount of territory anywhere else in the State. It grew on ground broken last Summer; many trees were left standing, and what grew right under them was but the least trifle inferior to the rest.

We have seen several pieces of winter wheat since then that also did very well. Now that club wheat has failed, farmers will perhaps try winter wheat again to some extent, though it is most likely some other spring wheat will take the place of the club, as the club took the place of the hedgerow a few years ago. In Dodge county Fife wheat has found favor with the people, and much will be raised there next year.—Farther west they talk more of the Rio Grand and Golden Drop sorts as the most promising successors to the club.

We stopped at Oconomowoc a day; a very pleasant village, full of very pleasant people, on a very pleasant lake, full of very pleasant sail boats. Here is a Young Ladies' Boarding School, of Episcopal bearing.

Marks of the freshet last May still show in some places. Near Watertown the plank road bridge, within the city limits, was still missing; indeed it is risky to say that it *was* within the city limits; but it was yet the more risky for the unsuspecting traveller to attempt to cross Rock River after dark. There was enough of the bridge left to carry a man into deep water, and nothing laid across to stop him; perhaps a bar had been there, (though there were no signs of it,) and had just been taken away as it was getting dark, for fear some one might run against it and hurt him. "Malignant Fate sat by and smiled" on all who passed that way after dark, and my walk to the Mississippi came near ending at the Rock.

We went via Lovell to Oak Grove, where we saw some first rate breeding stock, at D. J. WOODARDS'; among them was the noble "Gifford Morgan" horse. He is said to be nearer in genealogy to the original Justin Morgan, than any other horse now living, though but twelve years old.

I saw more fine stock in Dodge county, than I have seen in all the other parts of the State. If all the men there, whose cattle I saw, take them to the Dodge County Agricultural Fair, as they said they should, it will be worth going a long way to see. It is to be held at Juneau, the last of September. I have seen "well bred beasts," as a Cheshire man properly calls them, in any number, at Brighton, the "Bull's Head," and in England; but none better than some owned by Mr. FERGUSON, at Fox Lake, Mr. G. C. GUNN at Rolling Prairie, and Mr. WILLIAMS at Williams' Corners.

Mr. GUNN had the largest field of Fife wheat I have seen; it yielded abundantly, an excellent looking grain. His farm is a little ahead of any other I have seen in Wisconsin. I am incompetent to describe it with justice, not being enough of a farmer. If you are interested in agriculture, my reader, call on him the first time you go that way, and he will show you what you will admire. No matter if you are a stranger to him—so was I; you will find him a gentleman.

Other pretty places in that vicinity are the late Dr. FORRESTER DEXTER'S, on the north shore of Fox Lake, and JAMES TAYLOR'S, Esq., in Randolph, Columbia Co. We also visited SHAMBERG'S; indeed, we visited several *sham burgs* on the way; but this is the "Washington Place Hotel," at Lake Emily, and is getting a good name as a summer resort. We found people there from Milwaukee and other places. It is about as pleasant as the Madison Water Cure,—the house is well kept, and everything about it looks neat,—there are good boats and other provisions for visitors to enjoy themselves, and if they do not it isn't Mr. SHAMBERG'S fault, I'll warrant. The walks and drives might be improved upon.

At Fox Lake village is a Female Seminary, under Baptist Government. It is a large, noble edifice, built of limestone. We attended the examination of the scholars at the close of the term, which came off very creditably to themselves and the school. The next term will begin near the middle of September. There is a similar school at Beaver Dam, under the same management, for boys and young men.

The Lake itself is five miles long and two and a half wide; it is shallow, and surrounded by marsh; in it is a large quantity of floating marsh—moveable real estate, in pieces of from one to forty acres. There are some excellent sail boats on this Lake, in hands that sail them as well as any in Oconomowoc, Madison, or Milwaukee. They even talk of building a small steamboat here; it might work well on the Lake, but could not run the Creek from the Lake to the village, as they intend it to if they build it, for it is shallow, crooked, and so narrow in some places, that if two good-sized pickerel meet, one of them has to back all the way out.

Dodge, Fond du Lac, and Marquette counties, form a glorious farming country; the face of the land is rolling prairie, with sufficient timber here and there for all purposes but making lumber, so the eye is relieved of the monotony that wearies it on the level endless prairies of Illinois, Indiana and Iowa. The grain is there cut by four horse reapers mostly, and to see these mighty machines at work is almost the next thing to seeing a steamship sail; it would be quite so to a New England Farmer. It has been asserted that their operation divests the harvest field of some of the poetry which it has been deservedly the theme of in all ages and countries, but I can't see it so.

When we came into that section of the State, it was a sea of grain, as far as eye could reach, of all shades that it bears, from the oats, then deep green, to the yellow bending wheat.—But when we came away the wheat harvest was well advanced, and vast fields

"New reap'd,
Show'd like a stubble-land at harvest-home."

The Canvass in Illinois

It is plain to the whole country, and painfully obvious to every sincere and honest member of the democratic party of the Union, that but one mode of harmonizing and concentrating the democratic party in Illinois remains practicable, since the suicidal and disorganizing speeches of Judge Douglas, with which he has conducted the present canvass since his recent return to the State.

Up to the time of his Chicago speech it was not only practical, but it was confidently expected that a consolidation and reorganization of the democracy of Illinois would be effected, and that our party would carry the elections again in that always reliable State, as we had been wont to do before. There had been grave differences of opinion between members and sections of her democracy on a special question, but those differences had been rendered unimportant by the passage of the English bill, and there was a general desire to bury the by-gones of the last winter, and to reorganize anew and set out afresh upon the broad, open highway of principle.

It was the speeches of Judge Douglas that changed these fair prospects into gloom and doubt. It was he who dug up a buried controversy from its grave, and called up anew passions and strifes that had subsided. It was he that again arrayed democrats against democrats. It was he that arraigned the democracy of the Union before the democracy and abolitionists of Illinois as guilty of fraud, of violating pledges, and abandoning principles; it was he that denounced a great measure of his own party as a fraud and the administration and public men who had supported it as the perpetrators of fraud, at the same time that he extolled the competing measure of the black republicans as excellent and perfect, lavishing encomiums upon the coalition which had voted for it in Congress; it was he who first assailed the English bill before the democracy of Illinois, who were disposed to acquiesce unanimously in it, although he had boasted that it yielded the point on which he had taken sides against the democracy in favor of the abolitionists during the winter.

It is plain to every man who will not obstinately shut his eyes to the fact, that Judge Douglas is the author of the divisions of the Democracy in Illinois, and the man who is responsible to the country for the consequences. He represents the disorganization there, and without him it would not exist. It is very obvious that if he were removed from the canvass in Illinois, there would soon be no division; and that the only condition necessary to the union and success of the party in the State, and the election of a sound democratic Senator by the next legislature over Lincoln, is the retirement of Judge Douglas from a canvass, which he has entered only to disorganize the democratic party, discredit the democratic cause, encourage black-republicanism, defeat the election of a democratic Senator, and ensure the election of an abolitionist.

It is plain that the democratic party in Illinois cannot harmonize upon a man who denounces half of them as the upholders of a 'fraud,' and who eulogizes the black republican and American parties in Congress, for having supported, in company with himself, a black republican measure. It is plain that Judge Douglas by continuing in the field as a "democratic" candidate for the Senate, will only insure thereby the election of an abolitionist Senator. Not only this, but, by continuing in the field, he subjects himself to the suspicion of conspiring with the black republicans of his State to secure the election of an abolitionist senator. His encomiums pronounced at Chicago and elsewhere upon the action of the black republicans last winter in Congress, and his association and co-operation with them during the whole of the last session, followed up by his continuance in the canvass in Illinois, when it is plain that by so doing he insures the election of an abolitionist senator, all make the presumption that he continues in the field for this express purpose so violent as to be equivalent to proof of the act.

The people cannot be deceived by this assumption that the issue in Illinois is between himself and Lincoln. The issue is not upon men, but upon principles—the principles of the democratic party and those of the Republican party. Lincoln represents the principles of the republicans; Mr. Douglas does not represent the principles of the democratic party. By foisting himself into the canvass, Judge Douglas assumes that he (the man) is superior to the democratic principles, which have no representative or exponent in the canvass. If he be a democrat indeed; if he be a subscriber to the democratic doctrine—principles, not men; if he be really anxious that democratic principles shall triumph over black Republican principles by the election of a true and acceptable representative of democratic principles and the defeat of Lincoln, he will at once retire from a canvass which he has disorganized and demoralized, in order that the democratic party may at once harmonize upon a democrat who is sound, who does not impute fraud to his party, who does subscribe to and represent its principles, who does not extol the abolitionists and their measures, and who does not hold himself and his personal interests superior to his party and its fortunes. The alternative in Illinois is between the election of a sound democrat to the Senate and a black Republican. The retirement of Judge Douglas from the canvass will secure the first alternative; his continuance in the canvass doing the work of disorganization and faction, will secure the other.—The issue rests with him. He alone will be responsible for the result. The democracy wash their hands of the act he is committing, and of its consequences. If Lincoln be elected to the Senate, it will be Judge Douglas who will be the author of the deed.

THE INSURANCE COMPANIES.—LIST OF THOSE WHO HAVE COMPLIED WITH THE LAW.—The law of last winter relating to insurance Companies is very stringent. It requires a verified statement of the affairs of the Company to be published in the State Paper, (*The Argus & Democrat*,) and also to be filed with the Governor of the State. Each agent of an Insurance Company must have the Governor's certificate that the Company has complied with the law, and if he does the business of the Company without this certificate he is liable to a fine of $500 or imprisonment for six months. The following Companies have already complied with the law. Those who have not done so will do well to attend to it immediately, as the three months are about up within which they are compelled to perform this duty.

List of Insurance Companies that have complied with the Law and received their certificates from the Governor.

A writer from the "Tip Top House," Mount Washington, who with others reached there in a rain storm, says that after dinner they sat around a charcoal fire counting noses, and found that the party consisted of five *rain dears* and twelve *rain beaux*.

EYE AND EAR INFIRMARY!

MEIGS CASE, M. D.,

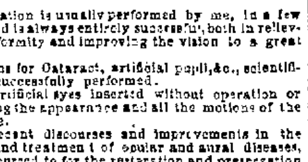

OPERATOR UPON THE EYE & EAR.

LECTURES ON THE EYE.

STRABISMUS, or Cross Eye, may be defined to be a want of harmony between the two eyes, which exists to such an extent that one of them does not move with the other, but is turned away involuntarily to the other side.

It is an affection so apparent as scarcely to require explanation, and is a most unpleasant defect, particularly to young people, and never fails to impair the sight more or less.

It consists essentially of a contraction of one of the six muscles which fix the ball as represented in the cut.

The operation is usually performed by me, in a few seconds, and is always entirely successful, both in relieving the deformity and improving the vision to a great degree.

Operations for Cataract, artificial pupil, &c., scientifically and successfully performed.

French artificial eyes inserted without operation or pain, having the appearance and all the motions of the natural eye.

All the recent discoveries and improvements in the diagnosis and treatment of ocular and aural diseases, will be recurred to for the restoration and preservation of the most valuable of the senses, *sight* and hearing.

Persons from a distance will be provided with boarding houses by making application at the office immediately on arriving in the City.

Operations, medicines and advice gratuitously given to persons who are really indigent, during the unoccupied moments of the operator.

Dr. BARNES takes pleasure in announcing to the citizens of Milwaukee and other places, that his office is at No. 12 Wisconsin street.

READ AND REFLECT.—The afflicted would do well to reflect before trusting their health, happiness, and in many cases, their lives, in the hands of physicians ignorant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family are subject to.

YEARS OF PRACTICE, exclusively devoted to the treatment and study of Syphilis, Gonorrhoea, Gleet, Strictures, effect of solitary habits, ulcers upon the body, throat, nose or legs, pain the head or bones, and all Mercurial Affections, and all impurities of the Blood, whereby the constitution has become enfeebled, enables the Doctor to offer relief to all who may place themselves under his care.

Dr. B. makes no charges for short consultations.—Those requiring much advice should enclose a small fee, sufficient to compensate for the time required to write the answer.

GENTLE WORDS.

A young rose in the summer time,
Is beautiful to me,
And glorious the many stars
That glimmer on the sea;
But gentle words and loving hearts,
And hands to clasp my own,
Are better than the brightest flowers,
Or stars that ever shone!

The sun may warm the grass to life,
The dew the drooping flower,
And eyes grow bright and watch the light
Of autumn's opening hour;
But words that breathe of tenderness,
And smiles we know are true,
Are warmer than the summer time,
And brighter than the dew.

It is not much the world can give,
With all its *subtle art*,
And gold or gems are not the things
To satisfy the heart;
But, O, if those who cluster round
The altar and the hearth,
Have gentle words and loving smiles,
How beautiful is earth!

The English Press on the Cable.

We published yesterday an able article from the London *Times* upon the successful completion of the Atlantic Telegraph Cable, and add, this morning, some extracts from other London papers, on the same subject.

From the Daily News.

The 5th of August will henceforth be celebrated as the day on which the old and new world were brought into instantaneous communication by the triumph of mind over matter. In an age of marvels, the most marvellous work of all has been effected. The wildest imagination of the wildest poet never ventured to play with such a wonder as this. The despised men of science, the patient questioners of nature, have found the means of freeing the subtle lightning, confined in a few drops of water, or a few grains of metal. They have laid a pathway for it to travel through the lowest, stillest depths of the Atlantic, far below the influence of wave and storm. The imprisoned spirit, freed from matter by thought, conveys its commands with the rapidity of the liberator.

From the Morning Star.

The success of this achievement will work a complete revolution in the intercourse between England and America. Now that the transmission of intelligence has become a question not of weeks, but of hours, every movement in the one country will produce a sensible effect upon the other. Whether in our social, commercial, or political relations, every pulsation in the heart of England will vibrate to the extremity of the States. Already that process has gone off to a marvellous extent. In spite of all our little bickerings, England and America knew more of each other and cared more for the good opinion of each other, than for that of any other nation on the face of the earth. But how much of this sensitiveness of feeling can be quickened now, * * * It is not without its significance that the cable destined to be of equal benefit to England and America, has been laid down by the ships belonging to both countries; ships destined originally for far other purposes, but now amicably united in a contest of man against the elements of nature. In the generous rivalry between the ships' crews which the operation involved, we are glad to see that there is not even room for those little petty triumphs of the performance of one ship over the other, which are so often boasted of, and which always grate on the feelings of the defeated party. In this case both ships seem to have done their duty with equal skill and ability.

From the Standard.

The marvels of Egypt may have been repeated at Cherbourg; but it has been left to Anglo-Saxon energy and perseverance to speed through the silent pathway of the deep Atlantic, the messages of peace and good will, and to throw a bridge of thought over the great expanse of waters that divides the East and West. It was, then, no barren heroism which encountered that fearful gale, when the hopes of civilization sent the squadron forth on its glorious errand. Strong resolves and faith have, as on former occasions, reaped an abundant reward; and it will be among the best earned honors of our own navy, and that of the United States, that the world owes to their united skill and courage the success of this great enterprise. May this link between the mother country and the great community which claims a common origin with it, be the type of an inseparable bond of friendship and alliance.

The Copper Mines.

We have had an opportunity to peruse a communication addressed to the Cincinnati *Gazette*, by a well known lawyer of that city, Chas. T. Bryant, Esq., regarding the discovery of copper at Wauzeka, and have also been permitted to make an extract from the same. After noting the discovery, and speaking of the richness of those specimens of ore which were submitted to his examination, Mr. B. writes:

"There can be but little doubt of a vast mineral deposit along the line of the Mississippi through this section; and capitalists of our older cities would do well to turn their attention to these matters, nearer home than Frazer River or even Lake Superior. The ores of the Mississippi can easily be transported by water to Cincinnati, or any place where steamboats are running in carrying on the transactions of the growing West and Northwest.— This discovery of copper at Prairie du Chien ought to be considered of vast importance, not only to the immediate vicinity but to the country at large. I trust this notice will induce capitalists to make a more thorough investigation of the mineral regions bordering on the Mississippi, with a confident belief that the investigation will be attended with the richest rewards."

Upon all the old maps of Wisconsin the locality where these discoveries have been made is marked as the seat of "Copper Mines," and the same is true of another locality in this county, near Mt. Sterling, on the Copper Creek. At the latter place, some years ago, a copper mine was worked a little while, and considerable ore taken out. It was, however, at some distance from the river, and without a market nearer than St. Louis, and without capital, the miners, who might have found encouragement in speedy returns, soon abandoned it.

* * * * *

Encourageing reports from the mine at Wauzeka, both as regard the quality of the ore, and the extent of richness of the vein, continue to be received almost daily.—*Prairie du Chien Leader, Aug. 21.*

G. SIMMONDS, SOLE PROPRIETOR AND MANUFACTURER OF PURE OHIO Catawba Brandy. THIS Brandy has been manufactured for several years from the pure juice of the Catawba Grape, thus affording additional evidence, of the progress of American enterprise and industry, and of our ability to produce articles at home, equal to those made by any other nation. The Ohio Catawba Brandy, not only equals but excels the best imported Brandies, in purity and flavor. It is in fact the best Brandy known. This statement is fully corroborated by the certificates of our most distinguished analytical chemists. The want of pure brandy has long been felt in this country, and the introduction of an article of such quality as to supersede the sale and use of those vile compounds hitherto sold under the name of Brandy, can only be regarded a great public good. The Catawba Brandy posses all the good qualities claimed for the best imported liquors, and is of perfect purity and superior flavor, and a sovereign and sure remedy for Dyspepsia, Flatulency, Cramp, Colic Languor, Low Spirits, General Debility, &c. NO FAMILY SHOULD BE WITHOUT IT. RETAIL PRICE $1,25 PER BOTTLE. Recommended by the physicians and druggists of the United States. G. Simmonds has appointed J. P. & F. J. MEDICAL.

THE LIVER INVIGORATOR! PREPARED BY DR. SANFORD, COMPOUNDED ENTIRELY FROM GUMS, IS one of the best purgative and Liver medicines now before the public, that acts as a *Cathartic*, easier, milder and more effectual than any other medicine known. It is not only a *Cathartic*, but a *Liver remedy*, acting first on the *Liver* to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most *Cathartics*. It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

The LIVER is one of the principal regulators of the human body; and when it performs its functions well the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the *Liver* for the proper performance of its functions; when the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the LIVER—having ceased to do its duty. For the diseases of that organ one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable.

To prove that this remedy is at last found, any person troubled with LIVER COMPLAINT, in any of its forms, has but to try a bottle, and conviction is certain.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease, effecting a radical cure.

BILIOUS ATTACKS are cured, AND WHAT IS BETTER, PREVENTED, by the occasional use of the LIVER INVIGORATOR.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently, and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

☞ One dose of two teaspoonfuls will always relieve SICK HEADACHE.

One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure.

Only one dose immediately relieves CHOLIC, while

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

☞ Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

☞ One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite, and makes food digest well.

One dose often repeated cures CHRONIC DIARRHŒA in its worst forms, while SUMMER and BOWEL complaints yield almost to the first dose.

One or two doses cures attacks caused by WORMS in Children; there is no surer, safer, or speedier remedy in the world, as it *never fails*.

☞ A few bottles cures DROPSY, by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all FEVERS of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

ALL WHO USE IT ARE GIVING THEIR UNANIMOUS TESTIMONY IN ITS FAVOR.

☞ MIX WATER IN THE MOUTH WITH THE INVIGORATOR, AND SWALLOW BOTH TOGETHER.

THE LIVER INVIGORATOR IS A SCIENTIFIC MEDICAL DISCOVERY, and is daily working cures almost too great to believe. It cures as if by magic, *even the first dose giving benefit*, and seldom more than one bottle is required to cure any kind of LIVER Complaint, from the worst *Jaundice* or *Dyspepsia* to a common *Headache*, all of which are the result of a DISEASED LIVER.

PRICE ONE DOLLAR PER BOTTLE.

MORE TO BE ADMIRED THAN THE RICHEST DIADEM EVER Worn by Kings or Emperors. WHAT? WHY A BEAUTIFUL HEAD OF HAIR. Because it is the ornament *God Himself* provided for all our race. Reader, although the rose may bloom ever so brightly on the glowing cheek, the eye be ever so sparkling, the teeth be those of pearls, if the head is bereft of its covering, or the hair be snarled and shriveled, *harsh and dry*, or worse still, if sprinkled with gray, nature will lose more than half her charms. Prof. Wood's Hair Restorative, if used two or three times a week, will restore and permanently secure to all such an ornament. Read the following and judge. The writer of the first is the celebrated Pianist, Thalberg:

DR. WOOD:— New York, April 19th, 1858. *Dear Sir:* Permit me to express to you the obligation I am under for the entire restoration of my hair to its original color. About the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative, it soon recovered its former hue. I consider your Hair Restorative as a very wonderful invention—quite efficacious as well as agreeable. I am, dear sir, yours truly, S. THALBERG.

"Drych a'r Gwyliedydd." WELSH NEWSPAPER OFFICE, 118 Nassau st., April 12, 1858. PROF. O. J. WOOD—*Dear Sir:* Some month or six weeks ago I received a bottle of your Hair Restorative and gave it to my wife, who concluded to try it on her hair, little thinking at the time that it would restore the gray hair to its original color; but to her, as well as my surprise, after a few weeks' trial it has performed that wonderful effect by turning all the gray hair back to brown, at the same time beautifying and thickening the hair. I strongly recommend the above Restorative to all persons in want of such a change in their hair. CHARLES CARDEW.

New York, July 25, 1857. PROF. O. J. WOOD: With confidence do I recommend your Hair Restorative, as being a most efficacious article I ever saw. Since using your Hair Restorative my hair and whiskers, which were almost white, have gradually grown dark; and I now feel confident that a few more applications will restore them to their natural color. It has also relieved me of all dandruff and unpleasant itching, so common among persons who perspire freely. J. G. KILBY.

PROF. WOOD—About two years ago my hair commenced falling off and turning gray; I was fast becoming bald, and had tried many Remedies to no effect. I commenced using your Restorative in January last. A few applications fastened my hair firmly. It began to fill up, grew out, and turned back to its former color, black. At this time it is fully restored to its original color, health and appearance, and I cheerfully recommend its use to all. J. D. HOES. Chicago, Ill, May 1, 1857.

The Restorative is put up in bottles of 3 sizes, viz: large, medium and small; the small holds ½ a pint, and retails for one dollar per bottle; the medium holds at least 20 per cent more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent more in proportion, and retails for $3. O. J. WOOD & CO., Proprietors, 312 Broadway, N. Y., in the great N. Y. Wire Railing Establishment, and 114 Market St., St. Louis, Mo. And sold by all good Druggists and Fancy Goods Dealers. jy7g826 ?w&w6m

AYER'S CATHARTIC PILLS. THE sciences of Chemistry and Medicine have been taxed their utmost to produce the best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood and expel the disease. They purge out the foul humors which breed and grow distempers, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to their whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill.— While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated they are pleasant to take; and being purely vegetable are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my preparations contribute immensely to the relief of my afflicted, suffering fellow-men. The Agents below named are pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures of numerous complaints. Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them and they should have it. Prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass. Price 25 cents per Box. Five Boxes for $1. Sold by— JOHN RICE, Milwaukee; J. H. REED & Co., Chicago; and Agents in every town in the United States. je9?d&w1m

With increased receipts the market opened with considerable activity, good samples of extra club sold freely at $1. Upon the receipt of the steamer's news, however, dealers were disinclined to operate, and the market became inactive, the offers of buyers being full 5c below the opening figures, closing dull, with a drooping tendency. The sales, as far as reported foot up about twenty-three thousand bushels, most spring wheat, at $1. Oats advanced 5a1c, and were in demand. The warehouses, we perceive, have refused to receive new oats for the present, fearing that they would spoil from dampness. Shippers would do well to see that their oats are perfectly dry before sending them to market. We quote today:

WHEAT—Prices drooping. The following sales were mostly made in the early part of the day, the same prices could not readily have been obtained in the afternoon: 975 bus No. 1 spring at 95c, 6,000 bus do at $1 in store; 15,150 bus extra club at $1, 250 bus at $1,01, 855 bus choice milling club at $1,05, 192 bushels white winter at $1,20, and 87 bus do at $1,25.

OATS—Are 1a1½c higher; sales of 700 bus at 46½, and 1,450 bus at 47c.

CORN—Steady at 60a65c.

BARLEY—Scarce and looking up. Quoted to-day at 65a75c.

RYE—Firm at 50a60c for common to choice.

POTATOES—Plenty at 25c.

EGGS—Dull at 8a10c.

BUTTER—Unchanged; fresh roll 12½a15c.

HIDES—The same; green 6c, do salted 7c, and dry 12½a14½c.

CHICAGO MARKET.

CHICAGO, August 25.

Grain is very dull and prices declining, even more rapidly than they rose. Very little old wheat is offering, and there is very little inquiry for any kind at present rates. The market declined 5c on wheat during the morning, but had recovered to 81½a82c at the close—sales are trifling.

WHEAT—Sales are of Spring, No. 2 new receipts: 1,000 bu at 85c, 5 cars at 82, 2,000 bu at 81½, 1 car at 80½ and 2 cars at 80 of old receipts, 2 cars at 78c; of rejected, 1 car at 74c; 3 cars at 72 and one car at 7oc all in store.

CORN—Sales of Canal 1 boat, 5,000 bu at 66c and 1 boat, 5,000 bu at 67c afloat; of Railroad No 1, 7 cars 1,010, 6,000 and 12,000 bu in lots at 68c; of No. 2, 7,000 and 700 bu and 5 cars at 60c; of rejected one car and 500 bu at 57c, all in store.

OATS—Sales are 1,000 bu old oats at 43c in store, and 400 bags new crop (poor stuff) at 44c on track.

RYE—One car sold at 70c in warehouse.

FLOUR—Sales are 50 bbls Kalamazoo and 40 bbls Dakotah, winter wheat, at $6 00; 20 bbls Daem & Co.'s XX at 6 85; 20 bbls Lake Mills at 8 50 and 100 bbls Harvest Mills at 8 75 both superfine.—*Chicago Journal, of last evening.*

Canadian flour easier; sales 400 bbls at 5,88a6,10. Rye flour quiet, small sales at 3,00a4,40.

WHEAT—Very heavy and 1a2c lower, shippers are not in the market and local millers refuse to buy to any material extent, whilst the demand is chiefly speculative for western account; sales 40,000 bus at 1,05 for sound Milwaukee club; 1,20 for prime winter red western; 1,30 for white Michigan, and 1.52 for prime white.

THIS MACHINE is of recent invention, and surpasses all others in use for its perfections as a thorough Separator and Scourer. It has given entire satisfaction in New York, Pennsylvania and other States where it has been introduced, and we are confident it is better adapted to the cleaning of Western grain than any other ever introduced into this State. It is fire proof, not liable to get out of repair, requires but little power to run it, and the scouring cylinder so constructed as to render it unnecessary to be renewed for years.
